From your very own video iPod to a glass of champagne, it's all about you at Salon U, one of Chicago's hottest, most innovative salons in Lincoln Park.

The creation of owners Mark Bingham and Duschan Musikovski, Salon U opened in August 2006. It primarily focuses on color and style while incorporating advanced technology (hair dryers come down from the ceiling) and timeless customer service values.

## What does Salon U mean?

We wanted something very simple. Salon U is all about YOU! We hope to someday open Salon U2.

## What's Salon U's IMAGE?

Sleek, polished cement floors, a stainless steel color bar, and hair dryers suspended from the ceiling. We're the upscale salon without the upscale attitude. People say they feel right at home and don't want to leave.

## What product lines do you carry?

We have Kérastase and Bumble and bumble.

## What makes your salon unique?

When you walk in, you are greeted by someone who loves to work for Salon U. You are also offered a drink: Coke, a latte, wine, or champagne.

We believe the client's time is very important. We make every effort so clients do not wait. If a client is waiting, we do what we can to keep them happy with plasma TVs running fashion shows or music videos and iPods loaded with the hottest TV shows.
